PRICING FOR QUALIFIED OPERATOR TRAINING & TESTING

Mobile Elevated Work Platform Qualified Operator Course:

The course is designed to cover the general requirements for safe operation of Mobile Elevated Work Platforms (MEWP) including Aerial Boom Lifts and Scissor Lifts, also known as Powered Personnel Platforms and the requirements of the ANSI A92 Standard. The course includes classroom instruction, final written exam, and hands-on evaluation of the operator.

Who Should Attend:

Required for employees who operate Aerial Boom Lifts, Scissor Lifts, also known as Mobile Elevated Work Platforms (MEWP). Only trained and authorized personnel shall be permitted to operate MEWPs. Participants must be a minimum of 18 years of age.

1-Day class at IAMU

*Fee: \$400 per person (min. 10, max 15 participants)
includes class, test, and practical exam*

Skid Steer Loader Qualified Operator Course:

The course is designed to cover the general requirements for safe operation of Skid Steer with bucket and fork attachments, and the requirements of the SAE J1388 Standard. The course includes classroom instruction, final written exam, and hands-on evaluation of the operator.

Who Should Attend:

Required for employees who operate Skid Steer. Only trained and authorized personnel shall be permitted to operate skid steer. Participants must be a minimum of 18 years of age.

1-Day class at IAMU

*Fee: \$400 per person (min. 10, max. 15 participants)
includes class, test, and practical exam*
